

# International Amateur Radio Union Region 1

2017 General Conference – Landshut, Germany

16 – 23 September 2017

Subject	Modification of 5.3.11 Judging of entries		
Society	ARI	Country:	Italy
Committee:	C5	Paper number:	LA17_C5_39
Author:	Alessandro Carletti, IV3KKW		

Now in the VHF Managers Handbook v 7.51 (2016 May) in the paragraph 5.3.11 is written:

*The final judging of the entries shall be the responsibility of the organising society, whose decision shall be final. Entrants deliberately contravening any of these rules, attempting fraud or flagrantly disregarding the IARU Region 1 bandplans shall be disqualified.*

~~*Each VHF Manager and/or national Contest Committee shall be responsible for monitoring during contests. Additional monitoring stations may be appointed, but these stations may not take part in the contest. The national VHF Manager/Contest Committee is responsible for disqualification based upon the results of monitoring. The claimed contact shall be disqualified for any error in the information logged by the station.*~~

*Any error in the exchanged information logged by a station is liable to result in the loss of all points for that contact, subject to review and confirmation by the contest organiser.*

We propose to change it like follows:

The final judging of the entries shall be the responsibility of the organising society, whose decision shall be final. Entrants deliberately contravening any of these rules, attempting fraud or flagrantly disregarding the IARU Region 1 bandplans shall be disqualified.

Each VHF Manager and/or national Contest Committee shall be responsible for the log entries of his own country, and can decide if an entrant should be disqualified or penalized by contravening any of contest rules. The claimed contact shall be disqualified for any error in the information logged by the station.

Any error in the exchanged information logged by a station is liable to result in the loss of all points for that contact, subject to review and confirmation by the contest organiser.
