Quotation "Modifications of the Log Robot"

Dear Mr. Verleijen,
with reference to your emails concerning the Log Robot, I am pleased to submit my quotation as follows:

Scope of services:

Change of upload rules - after the respective deadline (individual / ZIP) the uploaded logs become checklogs.	170,00 €
Documentation of the cross check algorithm that was implemented over the course of many years according to mails sent by IARU representatives.	425,00 €
Four more values (RST sent, received; serial number sent, received) have to be dumped in the QSO export and the cross checked score will be removed.	85,00 €
In the contest a new field "start evaluation" will be created, when data is entered by the contest admin, the evaluation starts automatically on that date and time.	170,00 €
A function for listing all the downloads of EDI logfiles or QSO dumps and other user activities (login and changes in date). The list includes date, time and user name.	425,00 €
Implementation of a function for deleting all EDI logfiles of a IARU contest from the server hard disk. The contest admin will call this function manually after the winners are informed. EDI logfiles for "log collection" contests will be deleted 60 days after the contest end time.	170,00 €
The "admin" role will get a function for editing the participants header data in the database: section, band, call, locator, exchange, equipment.	85,00 €
Implementation of second level security for "admin" roles by SMS. Price when using the provider https://websms.at/ When a different provider is used a new estimation will be made.	255,00 €
	1.785,00 €

Costs

The costs for the changes is the lump sum of EUR 1.785,00 plus 20% VAT. In the event of changes or additions made later to the provisions described above the actual accrued effort shall be invoiced on a time and material basis.
